

Introduction

The Smart Mag Compact filter is easy to install and should preferably be installed on the return circuit to the boiler. The compact design enables the filter to be fitted in previously inaccessible spaces. B3 Cleanser is designed to remove all debris, sludge and scale from system and B1 Protector offers long-term protection of domestic central heating systems against internal corrosion and limescale formation.

Technical Specification

Magnetic filter:

- Maximum working pressure: 4 bar
- Maximum water temperature: 120°C
- Medium: water glycol solution
- Bottle: PA66 30%Glass Fibre
- Seals: EPDM
- Fluid capacity: 240ml

Cleaner B3:

- Color: Dark amber
- Odour: Faint
- Form: Liquid
- pH (conc): 7.0 - 7.5
- pH (1% soln) 7.5 - 7.8
- SG: 1.20 @ 20° C

ProtectorB1:

- Form: Clear translucent liquid
- Odour: Faint. Aromatic
- Form: Clear liquid
- pH (conc): 7.1 - 8.1
- pH (soln): 7.6 - 8.2
- SG: 1.095 at 20° C
